Hi, My name is ____________________________

and I'm a student at ____________________________.

Our school class is going to Wolf Ridge Environmental Learning Center up on the north shore of Lake Superior. Wolf Ridge is a residential environmental school where the learning occurs outdoors all day long. We will learn about science, team building, art, and history.

I am looking forward most to ______________________. By buying a calendar you would help me go on this trip.

The calendar size is 12 x 11.25 closed and 12 x 22.5 open, with 1.5 inch squares for writing. All Dalbec images have adequate borders for matting and framing.

1 calendar = $________  2 calendars = $________  3 calendars = $________  4 calendars = $________
